Re: Curry Federal #3-I  
Section 22, T23S, R34E  
Completion in Antelope Ridge Atoka Gas Pool

Gentlemen:

Form C-104 has been received for the above-referenced well and before gas sales can be authorized from this well you will need to file an acreage dedication plat, Form C-102, for the Antelope Ridge Atoka Gas Pool.

Also, the well is at a non-standard location which must be approved by our Santa Fe office before we can authorize sales from this well. It appears this well was permitted by Max Curry in the Morrow and I do not find that he ever received approval of the non-standard location for the Morrow so you will not qualify for administrative approval under Rule 104 F.I.

Please refer to Rule 104 F for non-standard location application guidelines and if you have further questions, please contact Mike Stogner in our Santa Fe office at (505) 827-5811.

As soon as the non-standard location has been approved and the appropriate acreage dedication plat has been received your C-104 authorizing the sale of gas from this well will be approved.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
