17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

On August 6, 1985, this well was completed as a dual Blinebry Oil - Tubb Gas well. The 2 3/8" longstring was set in a Baker Lok-set packer at 5860'. The Tubb from 6003' - 6104' will be produced up this string of tubing. A tubing divider was run on the longstring and set at 5854', a parallel tubing anchor was set at 5787'. The 2 3/8" shortstring was landed into this anchor. The Blinebry will be rod pumped up this shortstring.

On August 7, rods and pump were run into the well and a pumping unit installed. The Blinebry is being tested. The Tubb zone is waiting to be connected to a gas line.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
