

**NEW MEXICO OIL CONSERVATION COMMISSION
FIELD TRIP REP**

Name Durward R. Smith Date 1/14/92 Miles 80 District I
Time of Departure 7 AM Time of Return 4 PM Car No. 10915

In the space below indicate the purpose of the trip and the duties performed, listing wells or leases visited and any action taken.

Signature *Durward R. Smith*

P U O 8

Resume replug operation on Michael Morris - Baker C-2 G.

Hobbs Anchor drilled holes and set four anchors.

Move in and rig up DA&S Well Service. I had to hire a backhoe from Colborn Construction Co. to move in some dry dirt so we could move in reverse equipment.

We picked up 1 joint of tubing and started in hole and tagged up approximately three feet under surface.

I shut down operations for the day because I did not want to try and drill out this plug with night falling. Move in and rig up the reverse equipment.

**TYPE INSPECTION
PERFORMED**

H = Housekeeping
P = Plugging
C = Plugging Cleanup
T = Well Test
R = Repair/Workover
F = Waterflow
M = Mishap or Spill
W = Water Contamination
O = Other

**INSPECTION
CLASSIFICATION**

U = Underground Injection Control - Any inspection of or related to injection project, facility, or well or resulting from injection into any well. (SWD, 2ndry injection and production wells, water flows or pressure tests, surface injection equipment, plugging, etc.)
R = Inspections relating to Reclamation Fund Activity
O = Other - Inspections not related to injection or The Reclamation Fund
E = Indicates some form of enforcement action taken in the field (show immediately below the letter U, R or O)

**NATURE OF SPECIFIC WELL
OR FACILITY INSPECTED**

D = Drilling
P = Production
I = Injection
C = Combined prod. inj. operations
S = SWD
U = Underground Storage
G = General Operation
F = Facility or location
M = Meeting
O = Other
