#### Instructions:

During gas-oil ratio test, each well shall be produced at a rate not exceeding the 10, which well is located by more than 25 percent. Operator is encouraged to take advance order that the well can be assigned increased allowable when authorized by the Division.

Gas volumes must be reported in MCF measured at a pressure base of 15.025 psia. Specific gravity base will be 0.60.

Report casing pressure in lieu of tubing pressure for any well producing through casing.

(See Rule 301, Rule 1116 & appropriate pool rules.)

I hereby certify that the above information is true and correct to the best of my knowledge and belief.
