RE: Directional Well

A.H. Blinebry Federal NCT-1 #50  
South Brunson Drinkard-Abo  
Unit letter K, Section 20, Township 22-S, Range 38-E  
Lea County, New Mexico

Mr Williams:

We have recently applied for permission to drill directionally on the subject well. The appropriate forms as designated by the new directional drilling rules have been sent to your office in Hobbs. After conversing with Mr Michael Stogner in Santa Fe, I feel comfortable that the enclosed C-102 will fulfill the requirements needed to be met for approval of the subject well. The A.H. Blinebry comprises the entire south half of section 20, and Texaco's GWI is 100% in the entire lease.

We are anxious to get started on the well and I politely ask that if there are any problems or questions with the application to this point that you please contact me concerning this application at 397-0431. Thank you for your assistance in this matter.

Yours very truly,

Greg Maes  
Engineer Assistant
