RE: AVION FEDERAL #2,  
UNIT P, S22-T23S-R32E  
POOL DESIGNATION

Gentlemen:

Our wellfile records show the above well was completed in the Triste Draw Delaware Pool on February 12, 1999. The C-104 completion report was approved on March 1, 1999, by the OCD District I office. After further research by our District I Geologist and according to Division Order R-11243, this well was placed in the Diamondtail-Delaware Pool, effective October 1, 1999. The OCD requests that C115 reports stating the production volumes for the dates of February 1999 through September 1999 on the above well, be amended showing the production applied to the following pool.

Diamondtail-Delaware Pool Code 17647

In addition please submit a C-102 plat stating the correct pool and a corrected C-104 completion.

If you have any further questions, please contact Donna Pitzer (ext. 115) or Sylvia Dickey (ext. 112) at the above number.

Sincerely,

*Chris Williams /GW*  
CHRIS WILLIAMS  
District I Supervisor
