Gentlemen:

Home-Stake Oil & Gas Company respectfully requests administrative approval for a non-standard location for the Sarah Johnston #2-22 Well. Review of geology and pipeline locations indicates that this location is optimum for production from the Fusselman formation.

Approval of this request will protect correlative rights, promote conservation, and encourage the efficient recovery of oil reserves.

By copy of this letter, we are notifying the offset operators of this proposed non-standard location. We have asked that they indicate their approval by executing two copies of the attached waiver, forward one directly to your office and the second to us for our files.

Thank you for your cooperation.

Very truly yours,

Barbara Courtney Long
Vice-President, Land
