(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Concho Resources Inc. proposes to allow Duke Energy to install one gas line tap, lay 60' - 6" buried poly extension line to the Tomcat '17' Federal #2 pad, and set two sales meters @ the pad. Concho Resources Inc. will lay a 3" poly surface line from the Tomcat '17' Federal battery to the Duke Energy meters. This installation is inside the original 400'X400' pad site of the Tomcat '17' Federal No. 2 well, which has been previously arch surveyed. The Duke Energy Pipeline is a buried 6", low pressure line.

Attached is a plat of our well location, meter locations, & pad to meter pipeline.

14. I hereby certify that the foregoing is true and correct
