13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The original plan was to drill below 12,000' as a Wildcat. We rebusmitted new casing plan to drill to 9,000'. The rig we are drilling with is incapable of running a 5,000# stack as substructure is not tall enough.
Because we are drilling a Cherry/Brushy Canyon test and not Strawn/Morrow, we are requesting permission to use a 3,000# stack.
