RE: ABANDON #2 PRODUCT WELL

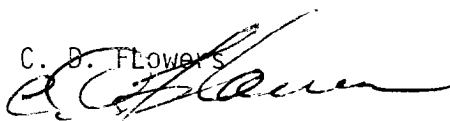

Gentlemen:

Attached is Form C-103, which is our proposal for plugging and abandoning the #2 product storage well located on the Eunice Plant L.P.G. #1, Unit #2G, Section 3, Township 22-S, Range 37 East.

As you are aware, this well has two (2) casing strings as well as a 10 3/4" surface casing string. The 5" casing was installed to repair a leak in the 7" casing string. Even though our records do not show the 5" and 7" to be cemented together, it is our opinion that they are. If this is true, it would be impossible to pull the 5" casing string out of the hole.

If this meets with your approval, I plan to start this work, along with the plugging and abandonment of the #1 storage well. I believe that you gave approval on the plugging of the #1 well in October, 1980.

Very truly yours,

C. D. Flowers

CDF/jr
