July 31, 1964

New Mexico Oil Conservation Commission  
Box 1980  
Hobbs, New Mexico

Gentlemen:

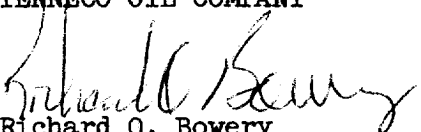

Attached for your approval are copies of Form C-110 and a revised Form C-128 on our USA-Jennings NM033503 Well No. 1.

This well was reclassified as a gas well in accordance with temporary field rules when the April 1963 Form C-116 was filed showing a GOR of 49,900. Revised Form C-128 shows the 160 acres to be assigned to this well as a gas well.

We respectfully request that a gas allowable be assigned to this well in accordance with the temporary field rules now in effect.

Yours very truly,

TENNECO OIL COMPANY

  
Richard O. Bowery  
District Office Supervisor
