13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Propose to introduce a patented technology called Rfplus into well core, utilizing a modified tubing pump to radiate low frequency elastic waves, dislodging oil droplets from the pore surface and reducing friction between reservoir fluids and rock, allowing an increase in production and ultimate recovery.

We would like to proceed with this operation as soon as possible.
