17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

As per attached sheet, as discussed and approved by the Bureau of Land Management, Carlsbad, New Mexico, this well has been returned to production from previously being temporarily abandoned by Conoco, Inc. so as to test the productive capacity of the well and to see if the hole in the 4 1/2" casing located above 30' is worth fixing, or if the well should be plugged and abandoned as per BLM instructions. No gas or other fluids is leaking to the surface or is penetrating fresh water sands as a result of this procedure. Request is hereby made to repair the down hole leaks, ~~if the well is determined to be commercially viable~~. First production when the well was returned to production was on July 1, 1992.

CASING LEAKS SEAL BY 10/31/92

I hereby certify that the foregoing is true and correct
