DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Goedeke No. 3, spudded 3:00 P.M., 10-12-52, was drilled to 304' and an attempt was made to set 7 1/8" surface casing. Before reaching bottom the casing stuck and subsequent attempts to recover it failed. It is proposed to plug and abandon Goedeke No. 3 in the following manner.

Set a 100-sack plug from 15' to the surface and erect a marker. Verbal approval to plug and abandon the well was obtained from Mr. Jack Gordon, 10-16-52. It is our intention to seal this plugged and abandoned well Goedeke No. 3-A. Verbal approval to change well designation was also obtained from Mr. Jack Gordon.

Formal approval of the above proposals is requested.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
