NOTICE OF INTENTION TO ABANDON WELL (Temporarily)	X		

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

November 21, 1962

Well No. 1 is located 660 ft. from N line and 660 ft. from W line of sec. 22
NW $\frac{1}{4}$ - Sec. 22 26-S 33-E NMPM
($\frac{1}{4}$ Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Undesignated Lea New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 3296.4 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

REASON FOR REQUEST TO TEMPORARILY ABANDON WELL

The subject well was drilled as a South extension to the Salado Draw Delaware Field. All completion attempts to date have failed. Temporary abandonment would allow time for the drilling of development wells between the Madera-Federal No. 1 and other present completions in the Salado Draw (Delaware) Field. These wells might provide information to allow a successful completion in the subject well.

PRESENT CONDITION OF MADERA-FEDERAL #1

Surface and production casing intact. Tbg and pkr in well w/ packer set @ 4970'. 10#/gal salt water in annulus and tbg. Well shut in.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Coastal States Gas Producing Company

Address P. O. Box 385

Abilene, Texas
