17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well is temporarily abandoned due to the fact that it will not produce into El Paso's sales line at their existing line pressure. We plan to attempt to produce the Langlie Mattix again in this well when the other zone in this dually completed well is depleted. The other side of this dual is producing from the Jalmat (Gas) Field.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
