17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

On September 5, 1980 Worldwide filed Notice of Intent to plug back this well from the Seven Rivers zone and to perforate the Yates and Tansil zone. This notice was erroneously sent to the New Mexico Oil Conservation Commission where it was approved on September 9, 1980. We realize now that your office was not notified of this operation. We are therefore submitting on the attachment a complete resume of operations conducted with the date upon which this work was done.
