Well No. 3 is located 2970 ft. from N line and 1650 ft. from E line of sec. 28
NW/4-SE/4 of Sec. 28 23S 36E NMPM
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Jalmat Lea New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 3625 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

The Lynn #3 is presently producing about 4 barrels of oil and 135 barrels of very corrosive water per day from the Seven Rivers zone at 3,554-3,598 feet. We plan to set a plug at 3550 feet and perforate and frac the Lower Yates zone in the interval 3,488 - 3,540 feet.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
