Schermerhorn Oil Corp.  
P. O. Box 875  
Hobbs, New Mexico

Gentlemen:

You are hereby advised that effective September 13, 1959 your Whitten No. 1 in Unit J of Section 33, T-23-S, R-36-E is being reclassified from a gas well to an oil well in the Jalmat Pool due to the gas-oil ratio which is shown on Form C-116 to be 4000 to 1.

We are enclosing an approved copy of Form C-110 for this well, and since it is not necessary to submit Form C-104, we are enclosing all copies of this form. We note that you have used obsolete Forms C-104, and are therefore forwarding a supply of the revised forms. In the future when submitting Form C-104 please use the revised forms.

Yours very truly,

OIL CONSERVATION COMMISSION
