Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Gentlemen:

An exception is requested to Order R-520 of the Rules and Regulations of the Oil Conservation Commission for E. P. Campbell No. 1 Whitten located in Unit N, Section 33, Township 23 South, Range 36 East, in the Jalmat Pool, Lea County, New Mexico.

This well is located on a 160-acre lease in the SW/4 of Section 33 and the tank battery is approximately in the center of the lease. This well is presently producing approximately 2 1/2 barrels of oil per day pumping and the casinghead gas produced is too small to measure. Because of the small amount of gas available from this marginal well, it is economically impractical to obtain a connection to a low pressure gas gathering line. Further development of this lease is anticipated, and in the event there is any increase in the casinghead gas produced, further attempts to obtain a gas connection to this lease will be made.

I hereby certify that the foregoing statement is true and correct to the best of my knowledge.

E. P. CAMPBELL
