Roswell, New Mexico

Gentlemen:

The latest gas-oil ratio test for your Whitten No. 2 in Unit A of Section 33, T-23-S, R-36-E indicates that the well has a ratio of 290,120:1.

In compliance with the provisions of Commission Order R-520 you are hereby advised that the oil allowable for the well will be cancelled effective September 1, 1953. This should give you sufficient time to apply for a non-standard proration unit and file Form C-128 showing the acreage to be dedicated, in order that a gas allowable may be assigned.

Yours very truly,

OIL CONSERVATION COMMISSION
