

New Mexico Oil Conservation Commission  
June 17, 1955  
Page 2

(f) That the manner and method of the proposed dual completion is mechanically feasible and practical.

(g) That the unorthodox location is caused by topographical conditions.

(h) That by copy of this letter of application, all offset operators are notified of the proposed dual completion and unorthodox location.

Therefore, Gulf Oil Corporation requests that the Oil Conservation Commission grant permission to dually complete the subject well as proposed in this application and that it grant exception to Rule 2 of Order R-520.

I hereby certify that the information given above is true and complete to the best of my knowledge.

Respectfully submitted,

C. F. Taylor  
Area Superintendent of Production

EJF/bh  
Att: d.

Sworn to and subscribed before me this the 17 day of June, 1954.
