Re: Application for Non-Standard
Gas Proration Unit

Gentlemen:

Amerada Petroleum Corporation requests that a non-standard gas proration unit be assigned to its State LM "T" No. 2, located 1980' FNL and 1980' FNL of section 36, T-23-S, and R-36-E, Lea County, New Mexico. The well is presently producing from the Jalmat Gas Pool (NW/4 of Section 36, W/2 and SE/4 of NE/4 of Section 36) with 280 ac. It is requested that the proration unit be increased to include E/4 of NE/4 of Section 36 for a total of 320 acres.

1/4 of the NE/4 was formerly assigned to Amerada's State LM "T" No. 5, located 660' FNL and 660' FNL of Section 36, T-23-S, and R-36-E. This well is completed in the Jalmat zone and has been re-completed from an oil well to a gas well due to a recent gas-oil ratio. The well is presently temporarily abandoned.

Yours very truly,

D. C. Capps
