

OIL CONSERVATION COMMISSION^N
HOBBS, NEW MEXICO

Nov. 2, 1959

Amerada Pet. Corp.
Drawer D
Monument, New Mexico

Attn: Mr. D. C. Capps

Gentlemen:

As per your telephone request of this date this is to advise you that your State LM "T" No. 5 in Unit A of Section 36, T-23-S, R-36-E will continue to be classified as a gas well in the Jalmat Pool for a period of sixty days, during which time it will be tested to determine the proper classification. Prior to January 1, 1960 you are requested to submit another gas-oil ratio test in order that we may properly classify the well as either an oil or a gas well.

This letter supercedes the letter from this office dated October 20, 1959 by which you were advised that the well was being re-classified as an oil well due to the gas-oil ratio.

Yours very truly,

OIL CONSERVATION COMMISSION

Joe D. Ramey
Proration Manager
