Eunice, New Mexico

Gentlemen:

We have received Form C-116 for your State LM "T" No. 5 in Unit A of Section 36, T-23-S, R-36-E, Jalmat Gas Pool, indicating a GOR of 36,750:1. Under the provisions of Commission Order No. R-520 this well should now be classified as an oil well rather than a gas well, and the gas allowable is being cancelled effective October 13, 1959. It is impossible, however, to assign an oil allowable in the Jalmat Pool until you have applied and approval has been granted for an oil-oil dual completion. The well will remain on the Oil Proration Schedule in the Langlie Mattix Pool.

Yours very truly,

OIL CONSERVATION COMMISSION

R. F. Montgomery
Proration Manager
