Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Under Order No. R-6138 (Case No. 6663), permission was granted to Doyle Hartman by the New Mexico Oil Conservation Division on October 12, 1979, for a Jalmat (Gas) infill well (Maralo State No. 1) to be located 330 FSL & 2310 FWL Section 36 with the E/2 SW/4 Section 36 to be dedicated as the proration unit for the new well. Since the E/2 SW/4 Section 36 is the same acreage that is presently dedicated to Maralo's Shell "C" State No. 2 Jalmat (Gas) well and the approved infill well has now been successfully completed as a Jalmat (Gas) producer, we hereby notify the NMOCDD that as of this date the Maralo Shell "C" State No. 2 is being shut-in and abandoned as to the Jalmat (Gas) Pool so that the allowable for the E/2 SW/4 Section 36 can be assigned to the Hartman Maralo State No. 1. Just as soon as the future use of Shell "C" State No. 2 wellbore can be decided, the well will be promptly and properly plugged as to the Jalmat (Gas) interval.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
