Dear Mr. Lowe:

On November 22, 1947, I approved Notice of Intention to Drill Ralph Lowe, Shell State C-2 Well in Section 36, Township 23, Range 36, Cooper-Jal Field, Lea County, New Mexico.

Today I received from our Santa Fe Office Form C-102 showing that you ran 10 3/4" pipe on 2-26-48 also 5 1/2" casing dated 2-26-48 along with Form C-102 and C-103 Notice of Intention and Report of Result Shooting Well. Also, Form C-105, Well Record, dated the same day.

I would refer you to Order #4, Rule 26 of Rules and Regulations of the Oil Conservation Commission.

All operators in the State of New Mexico report on Form C-102 when they run a string of pipe and as to the reporting of the result thereof I refer you to Rule 27, Form C-103.

I can not approve the reports coming in like this. I have written you before in regard to this and to date I have not received any answer. I have made several trips to check your drilling operations and to date have not been able to contact any one in charge.

I would like to contact you at your convenience in regard to this matter.

Very truly yours,

OIL CONSERVATION COMMISSION

State Oil & Gas Inspector
