Re: Gruy Petroleum Management Co.
State X No.1 re-entry
160 acre Non-Standard Jalmat Gas Pool SPU
NW/4 Sec. 2, T-24S-R34E
Lea County New Mexico

Dear Ms. Wrotenbery:

Gruy Petroleum Management Co. requests administrative approval of the referenced non-standard proration unit under Division General Rule 104(D)(2)(b). The NW/4 of section 2-24S-36E will be dedicated to the proposed re-entry of the State X No. 1 well. Cities Service Oil Company drilled the State X No. 1 at this location in 1949. Surface casing was set and then the well was plugged and abandoned. The NW/4 of section 2 was previously approved by Administrative Order NSP-1035, as a non-standard proration unit for the now plugged Citgo AS State No. 1. We anticipate that our re-entry of the State X No. 1 well will result in a completed gas well, at a standard location in the Jalmat Gas Pool.

We are enclosing for your reference a copy of our application to drill, and Form C-102, along with an SPU list and color-coded plat depicting the proration units surrounding our proposed location. In compliance with Division General Rule 104(D)(2)(d) we have sent a copy of this application by certified mail to all owners of gas operating rights in the immediately surrounding Jalmat Gas Pool SPU's.

Your consideration in this matter is appreciated. If you have any questions or need additional information, please advise.

Yours truly,

Zeno Farris
Manager, Operations Administration
