Mr. R. F. Montgomery
Proration Manager
New Mexico Oil Conservation Commission
P. O. Box 2045
Hobbs, New Mexico

Dear Mr. Montgomery:

Attached are completed New Mexico Oil Conservation Commission Forms C-103, C-104, C-110, and C-128 on our Vaughn B-3 #1 well in the Jalmat Field of Lea County, New Mexico. We have recently plugged this well back to the Yates sand and re-completed it as a dry gas well.

We do not have an application form for a non-standard Gas Proration Unit nor a copy of your order R-520. Would certainly appreciate your sending us some of the forms and a copy of the order R-520 or advise us as to whom we should contact for such material.

We sincerely appreciate the courtesy you have shown us in informing us as to the procedure necessary to get the subject well on production. Also we certainly appreciate the courtesies extended us by your staff during our visit to your office in October.

Yours very truly,

Robert B. Ray
Robert B. Ray
