3. That attached hereto, marked Exhibit "A", is a plat showing the acreage to be dedicated, the offset ownership, and the location of the Daniel Vaughn B-3 #1 well.
4. That the granting of this application will prevent waste and protect the correlative rights of all parties concerned.
5. That attached hereto, marked Exhibit "B", is a list of names and addresses of all offset operators within 1980 feet of the proposed unit well or located within the section in which the proposed unit is situated. That each operator on the list has been notified by being sent a copy of this application by registered mail.

Therefore, applicants respectfully request that this application for a non-standard gas proration unit of 320 contiguous acres be granted.

Respectfully submitted,

Robert B. Ray
Petroleum Engineer
Trust Department

Encls.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques.

3. The third part of the report is a discussion of the results of the study. It presents the findings of the research and compares them with the previous studies in the field.

4. The fourth part of the report is a conclusion and a list of references. The conclusion summarizes the main findings of the study and provides recommendations for future research. The references list the sources of information used in the study.

5. The fifth part of the report is an appendix containing additional information related to the study. This may include raw data, detailed calculations, or other supporting materials.

6. The sixth part of the report is a bibliography of the sources used in the study.

7. The seventh part of the report is a list of figures and tables. These are used to present the results of the study in a clear and concise manner.

8. The eighth part of the report is a list of abbreviations and symbols used in the study.
