Additional information:

Permission is hereby requested to centralize tank battery of 6- 500 bbl low API tanks for all wells on our Eugene Coates Lease (#1, CSW SE- #2, CSE SW- #3, CSW SW- #4, CSESE- #5, CNE SE- #6, CNE SW- #7 CNW SW).

The seven wells on this lease are now producing into two batteries with four tanks to each battery. Wells 1, 4 & 5 producing into one battery of four tanks, and Wells 2, 3, 6 & 7 producing into the other battery of four tanks.

Our motive for asking permission to centralize all the tanks into one battery is that since the wells have commenced producing water along with the oil it can be arranged to treat the oil much more conveniently with one central treating system, and in order to do this it is of course necessary that we produce all the wells into one central battery.

Yours truly,

PLEASE SEE REVERSE:

Permission is hereby granted to make pipe line connections requested above.
