Dear Mr. Creeden:

I am returning herewith an approved copy of your "Notice of Intention to Drill New Well" on your Eugene Coates #3 in Sec. 3, T. 24 S., R. 36 E.

You will notice I changed the surface casing depth from 200' to 250' which is the minimum depth according to the new regulations.

The rule for Jal, Cooper, Eunice and Monument regarding this matter is: "A conductor string of sufficient length to shut off all water to a depth of at least 300 feet, and in any case, not less than 250 feet long, shall be run, and shall be cemented to the surface."

Very truly yours,
