PULL OR ALTER CASING <input type="checkbox"/>	OTHER <input checked="" type="checkbox"/> Request permission to hold well for future use as SWD	CASING TEST AND CEMENT JOBS <input type="checkbox"/>	OTHER <input type="checkbox"/>

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The subject well was approved for SWD use by Order R-5167. It is being held as back up well in the event problems should develop in the present disposal system.

On initial tests run in July 1981, salty sulphur water was injected. When the pump was shut down fluid level stood at 1400 feet. Same fluid now remains in hole. Pressure gauges on well head records zero pressure. Well was opened 9/3/82 with no blow indicating that zero pressure is correct and that no change has occurred in condition of casing.

Permission is requested to hold well in present status pending future use as a disposal well.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
