

- 4/28/59 Interval 7586-7592' tested water. Setting bridge plug 7312'. Preparing to perforate 7290 - 7296' and acidize.
- 4/29/59 Perforated 7290 - 7296'. Set packer at 7265'. Acidized with 1,000 gallons. Completed at 12:00 P.M. Swabbing acid water into pits.
- 4/30/59 Interval 7290 - 96' tested water. Set bridge plug at 7160'. Perforated in interval 7064 - 7160'. Set packer at 7064' and acidized with 1,000 gallons. Completed at 6:30 A.M. Swabbing acid water.
- 5/1/59 Interval 7064 - 7160' tested water. Logged. Set bridge plug at 3830'. Perforated in interval 3725 - 3830'. Packer set at 3725'. Preparing to acidize and sandfrac.
- 5/2/59 Sandfraced 3718 - 3722' with 10,000 gallons oil and 12,000 sand.
- 5/3/59 Swabbed into pits 24 hours. Well making water and 1% oil.
- 5/4/59 Swabbed until 10:00 A.M. 5/3/59. Laid down tubing. Completed 6:00 A.M. this morning. Now preparing to shoot 9 5/8" and pull approx. 3300' of same, after completion of which will release rig but will continue to swab well.
- 5/5/59 Ran 3 point indicator. Found pipe free at 2600'. Circulated 7 hours. Ran another 3 point. Found pipe free at 3300'. Now picking up drill pipe to cut pipe off.
- 5/6/59 Cut 9 5/8" at 3803'. Pipe stuck. Worked pipe for 5 3/4 hours. Could not work loose. Cut casing at 3310'. Pipe free, expect to remove 9 5/8" today and release rig.
- 5/7/59 Finished coming out of hole with 9 5/8" and laying same down. Laid down drill pipe. Went in hole with 3800' 2" tubing. Rig released 10:30 P.M.
- 5/7 to
5/11/59 A.M.
Recovered 3342' 9 5/8" casing. Ran tubing to 3700'. Released rig 10:30 P.M. 5/7 and moved same off. Installed pumping unit. Expect to have same in operation today.
- 5/12/59 Pumping unit in operation. Pumping water accumulated in casing as a result of pipe recovery operations, etc. Estimated 1,000 bbls. of fluid, including frac oil. to recover.
- 5/18/59 Well pumping water at rate of approximately 100-150 bbls. per day. Expect to begin recovery of frac oil this week.
- 5/25/59 (Pumping water. Sulphur water showing up. Having water analyzed today to determine if it is formation water.)
- 6/1/59 Pumping sulphur water.
