Date

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Humble Oil & Refining Company, J. L. Coats, Well No. 1 in NW/4 of NE/4  
of Sec. 10, T. 24-S, R. 36-E, N. M. P. M., Cooper Field,  
Lea County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Set cement retainer and squeeze perforations in 7" casing from 2985' to 3230' with 75 sacks cement to shut off water and gas entering through perforation in 7" casing. Although the 7" casing was cemented with 500 sacks cement which filled annular space back to surface, an effort will be made to recover all casing possible but in the event recovery of casing cannot be made, the hole will be filled with mud-laden fluid and cement plug placed in top of casing and marker placed in accordance with plugging requirements of State of New Mexico. Well now shut in. Last test showed 1,080 bbls. water and 4,000 MCF gas per day from plugged depth of 3246'.

Approved AUG 20 1943, 19
