

HUMBLE OIL & REFINING COMPANY

MCCAMEY, TEXAS,

R. C. BARBOUR

June 10, 1935

Mr. F. J. Vesely
State Oil and Gas Inspector
Box 522
Carlsbad, New Mexico

Dear Sir:

The attached request for completing our J. L. Coats No. 2 covers the setting of one string of four and three-quarter inch casing above the oil horizon, and cementing back into the six and five-eighths inch casing set in the top of the brown lime.

We appreciate you people allowing us to complete this well as a producer, it, of course, being understood that not more than four wells will be drilled on this lease, or one well for each forty acres.

The operations of drilling the two wells have cost us in excess of a quarter of a million dollars, and we take this opportunity to express our appreciation of the consideration given us by all officials of the State of New Mexico.

Yours very truly

HUMBLE OIL & REFINING COMPANY
