Dear Sir:

We are submitting herewith a corrected copy of "Notice Of Intention To Drill New Well" due to the fact that an error was made in the size of hole drilled to set the 8-5/8" casing. This error has changed the number of sacks of cement used from 500 to 275, and the casing depth has been changed from 1420 to 1360'.

Trusting that this change will meet with your approval, I am,

Very truly yours,

R. S. DEWEY
