

NEW MEXICO STATE LAND OFFICE
OFFICE OF THE STATE GEOLOGIST
 SANTA FE, NEW MEXICO

MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas inspector if possible.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON DEEPENING WELL	
REPORT ON RESULT OF SHOOTING WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF WATER SHUT-OFF	X	REPORT ON REPAIRING WELL	
REPORT ON RESULT OF ABANDONMENT OF WELL

REPORT OF THE GEOLOGICAL SURVEY

OF THE TERRITORY OF ARIZONA

REPORT OF THE GEOLOGICAL SURVEY

The following report was prepared by the Geological Survey of the Territory of Arizona, under the direction of the United States Geological Survey, and is published by the Government Printing Office, Washington, D.C., 1900.

The report is divided into two parts, the first of which contains a general description of the geology of the Territory of Arizona, and the second of which contains a detailed description of the geology of the various counties of the Territory.

The first part of the report contains a general description of the geology of the Territory of Arizona, and is divided into three sections, the first of which contains a general description of the geology of the Territory, the second of which contains a description of the geology of the various counties, and the third of which contains a description of the geology of the various towns and cities.

The second part of the report contains a detailed description of the geology of the various counties of the Territory, and is divided into three sections, the first of which contains a description of the geology of the various counties, the second of which contains a description of the geology of the various towns and cities, and the third of which contains a description of the geology of the various mines and quarries.

The third part of the report contains a description of the geology of the various towns and cities, and is divided into three sections, the first of which contains a description of the geology of the various towns and cities, the second of which contains a description of the geology of the various mines and quarries, and the third of which contains a description of the geology of the various public lands.
