MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas inspector if possible.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON DEEPENING WELL	
REPORT ON RESULT OF SHOOTING WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF WATER SHUT-OFF		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF ABANDONMENT OF WELL		RESULT OF ACIDIZING WELL	X

REPORT OF THE STATE GEOLOGIST

REPORT ON THE STATE GEOLOGICAL SURVEY

It is the duty of the State Geologist to report to the Governor and the Legislature on the progress of the State Geological Survey during the year. The report is divided into two parts: a general report on the progress of the survey, and a detailed report on the work done during the year. The general report is divided into three sections: a summary of the work done, a summary of the results of the work, and a summary of the recommendations of the State Geologist. The detailed report is divided into two sections: a summary of the work done, and a summary of the results of the work.

The following is a summary of the work done during the year:

Section	Work Done	Results
Geology	Exploration of the State Geological Survey, and a detailed report on the work done during the year.	Summary of the work done, and a summary of the results of the work.
Mineralogy	Exploration of the State Geological Survey, and a detailed report on the work done during the year.	Summary of the work done, and a summary of the results of the work.
Palaeontology	Exploration of the State Geological Survey, and a detailed report on the work done during the year.	Summary of the work done, and a summary of the results of the work.

The following is a summary of the results of the work done during the year:

The State Geological Survey has made great progress during the year. The work done has been of great value to the State, and the results of the work have been of great importance. The State Geologist has been able to report to the Governor and the Legislature on the progress of the survey, and the results of the work done during the year. The State Geologist has been able to report to the Governor and the Legislature on the progress of the survey, and the results of the work done during the year.

The following is a summary of the recommendations of the State Geologist:

The State Geologist recommends that the State Geological Survey be continued, and that the work be done during the year. The State Geologist recommends that the State Geological Survey be continued, and that the work be done during the year.

The following is a summary of the work done during the year:

The State Geological Survey has made great progress during the year. The work done has been of great value to the State, and the results of the work have been of great importance. The State Geologist has been able to report to the Governor and the Legislature on the progress of the survey, and the results of the work done during the year. The State Geologist has been able to report to the Governor and the Legislature on the progress of the survey, and the results of the work done during the year.
