Dear Mr. Yarbrough:

We have been carrying the Kan-Mex Corporation No. 2 Mosley in Sec. 10-T24S-R36E, as 660' from the South line and 1980' from the East line. Laughlin and Simmons claim that this well is 330' from the South line and 1650' from the East line.

I thought you might be interested in this.
I have always found Laughlin and Simmons to be correct.

Very truly yours,

OIL CONSERVATION COMMISSION
