HOBBES OFFICE OOO

Gentlemen:

We are enclosing a photostatic copy of plat showing the location of our Rocket #1 and Rocket #2 wells and the tank battery. In a recent conversation with Mr. E. H. Barnett, El Paso Natural Gas Company, Jal, New Mexico, Mr. Barnett stated that our tank battery was approximately 4,000 feet from the company's line, going through Section 3. Our production will go to the Jal #4 Plant through Trunk 4-B.

We are also attaching a survey made by El Paso Natural Gas Company giving volume measures and gas-oil ratio of these two wells.

We trust that this is the information desired, but if anything additional is needed, please do not hesitate to let us know.

Very truly yours,

JOSEPH I. O'NEILL, JR.
