

1. PASO NATURAL GAS COMPANY

Memorandum

NFO #421

To: Mr. G. E. Kendrick
From: Jack O. Whitting
J. B. Murray

Date: July 23, 1958
Place: Permian Division
Gas Engineering

Re: Available Vent Gas on the
Joseph I. O'Neill's Rocket
No. 1 and No. 2 wells located
in Sec. 10, Twp. 24S, Rge 36E,
Lesa County, New Mexico.

A survey was conducted on the subject wells on July 22,
1958 through July 23, 1958.

The volume measured was 225 MCF/Day with a G.O.R. of
9.8 MCF/Day. The separator pressure was 15 $\frac{1}{2}$ (PSIG).

Samples were secured and analyses will be distributed
by the Permian Division Laboratory.

Jack O. Whitting
