

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the plan begins. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Place

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the _____

Gulf Oil Corp. G. E. Cooper Well No. 2 in NW SW
Company or Operator Lease
of Sec. 11, T. 24-S, R. 36-E, N. M. P. M., Cooper Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Since the producing of oil from this well has reached the economic limit and since all efforts to produce oil from all known producing horizons have failed, we request the authority to plug and abandon the above mentioned well.

We propose to set a Baker cement retainer at approximately 3400 feet inside the 5 1/2" casing and plug off the exposed formation below with cement. The oil string will then be shot off above the retainer and above the top of the cement and salvaged. The hole will be filled with mud and plugged at the surface with cement in accordance with State Regulations. Some 271 feet of 10 3/4" pipe will be left in the hole.

Approved MAR 6 1946, 19____
except as follows: if 7" casing is

pulled a cement plug should be
set at the top of well section
