DateOIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Gulf Oil Corp. G. E. Cooper Well No. 1 in SW SW
Company or Operator Lease
of Sec. 11, T. 24-S, R. 36-E, N. M. P. M., Cooper Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well has been abandoned for the past year. All efforts to produce oil from the well from the producing horizons penetrated have failed. Careful study of our producing records and reservoir information of this well and wells of other operators in the area indicate that the production of oil in commercial quantity is not available.

We propose to place Baker cement retainer at approximately 3000 feet and plug off the exposed formation below with cement. The 5 1/2" oil string will be shot off above the retainer and above the top of the cement and salvaged. The hole will be filled with mud and plugged at the surface with cement plug in accordance with State regulations. The 246 feet of 10 3/4" casing and 2907 feet of 7 5/8" casing will be left in the hole.

Approved MAR 4 1946, 19____
except as follows:
