17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well ceased to produce 9-1-68, and the well is now included in the Cooper Jal Unit waterflood project. This well is being held for possible production of oil from the Jalmat zone or the possible deepening to the Langlie Mattix zone.

No definite timing of remedial work has been determined. It is requested that plugging and abandoning be delayed at least two years since the well has potential value to the waterflood project.

Expires 10/1/75

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
