The history of the United States is a story of the growth of a great nation from a small colony of English settlers. The first settlers came to America in 1607, and by 1776 the thirteen colonies had declared their independence from Great Britain. The American Revolution was a struggle for freedom and self-government, and it was the first step in the creation of a new nation. The United States was founded on the principles of liberty and justice for all, and these principles have guided the nation ever since.
