MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas Inspector if possible.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS	X	REPORT ON DEEPENING WELL	
REPORT ON RESULT OF SHOOTING WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF WATER SHUT-OFF		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF ABANDONMENT OF WELL

MISCELLANEOUS REPORTS ON WELLS

These reports are submitted to the State Geologist for his information and for the purpose of being placed on file for reference. They are not to be considered as official reports of the State Geologist, nor are they to be used as evidence in any legal proceedings. Reports on wells should be submitted to the State Geologist as soon as they are completed, and should be accompanied by a certificate of the owner or operator of the well, stating that the report is true and correct.

NAME OF WELL	LOCATION OF WELL
DATE OF REPORT	NAME OF REPORTER
DEPTH OF WELL	DIAMETER OF WELL
TYPE OF WELL	USE OF WELL
WATER LEVEL	WATER QUALITY
WATER QUANTITY	WATER TEMPERATURE
WATER PRESSURE	WATER ANALYSIS

The following is a description of the well and the water obtained therefrom. The well is located on the north side of the town of Santa Fe, New Mexico. It is a hand-dug well, and is about 10 feet deep. The water is obtained from the bottom of the well, and is used for domestic purposes. The water is clear and sweet, and is of good quality. The water level is about 5 feet below the surface of the ground. The water temperature is about 60 degrees Fahrenheit. The water quantity is about 10 gallons per minute. The water pressure is about 10 pounds per square inch. The water analysis shows that it is free from all impurities, and is of good quality.

STATE OF NEW MEXICO, COUNTY OF SANTA FE, 1910.

I, the undersigned, being duly sworn, depose and say that the foregoing is a true and correct report of the well and the water obtained therefrom, and that I am the owner or operator of the well.

Subscribed and sworn to before me this _____ day of _____, 1910.

Notary Public for the State of New Mexico.
