

Submit this report in triplicate to the Oil Conservation Commission or its proper agent when ten days still the work specified is completed. It should be signed and swort to before a notary public for reporting of Grail, and drilling operations, results of shooting well, results of test of aging shut-offs, result of plugging of Grail, and other important operations, even though the work was witnessed by an agent of the commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:
