

NEW MEXICO STATE LAND OFFICE
SANTA FE, NEW MEXICO

DEPARTMENT OF THE STATE GEOLOGIST

NOTICE OF INTENTION TO TEST WATER SHUT-OFF

Notice must be given to the State Geologist or to the proper Oil and Gas Inspector at least five days before the test. It is desirable that a representative of the Department of the State Geologist witness the water shut-off before drilling into the productive sand whenever possible. If changes in the proposed plan are considered advisable, a copy of this notice showing such changes will be returned to sender. Submit this notice in triplicate.

Bartlesville, Okla., N. Mex., August 18, 1934

Mr. E.H. Wells

State Geologist,
Santa Fe, New Mexico.

DEPARTMENT OF THE ENVIRONMENT

NOTICE OF INTENTION TO TEST WATER QUALITY

The purpose of this notice is to inform the public of the Department's intention to test the water quality of the Hudson River at the New York State Thruway Authority's (NYSTA) proposed site for a new bridge. The Department is required by the Federal Water Pollution Control Act (FWPCA) to conduct such tests. The tests will be conducted in accordance with the procedures set forth in the Department's Water Quality Testing Manual. The results of the tests will be used to determine the water quality of the river and to develop a water quality management plan for the river.

The tests will be conducted in accordance with the procedures set forth in the Department's Water Quality Testing Manual.

The Department is required by the FWPCA to conduct such tests. The tests will be conducted in accordance with the procedures set forth in the Department's Water Quality Testing Manual.

The results of the tests will be used to determine the water quality of the river and to develop a water quality management plan for the river.

The Department is required by the FWPCA to conduct such tests. The tests will be conducted in accordance with the procedures set forth in the Department's Water Quality Testing Manual.

The results of the tests will be used to determine the water quality of the river and to develop a water quality management plan for the river.

The Department is required by the FWPCA to conduct such tests. The tests will be conducted in accordance with the procedures set forth in the Department's Water Quality Testing Manual.

The results of the tests will be used to determine the water quality of the river and to develop a water quality management plan for the river.

The Department is required by the FWPCA to conduct such tests. The tests will be conducted in accordance with the procedures set forth in the Department's Water Quality Testing Manual.

The results of the tests will be used to determine the water quality of the river and to develop a water quality management plan for the river.
