Bartlesville, Oklahoma
Place

June 13, 1935
Date

Mr. E. H. Wells State Geologist,
 Santa Fe, N. Mex.

Following is a notice of intention to do certain work as described below at the _____

Phillips Petroleum Company C. D. Woolworth Well No. 7 in SE/4 SW/4
Company or Operator Lease

of Sec. 23, T. 24S, R. 30E, N. M. P. M., Cooper

Oil Field, Lea County.

DETAILS OF PROPOSED PLAN OF WORK

At the present time this well has a gas oil ration of 15,400 cubic feet. It is our intention to sand pack the oil formation, run a cement cap, and then shut off the gas above the oil bearing formation by pumping cement into the formation under pressure.

MINERAL RESOURCES

The purpose of this report is to provide a general overview of the mineral resources of the State of New York. The report is based on a review of the available data and is intended to provide a basis for the development of mineral resource management policies.

The report is organized into three main sections: a general overview of the mineral resources of the State, a description of the mineral resources of the State, and a discussion of the mineral resource management policies of the State.

The mineral resources of the State are described in terms of their distribution, abundance, and quality. The distribution of the mineral resources is described in terms of their location within the State. The abundance of the mineral resources is described in terms of their quantity. The quality of the mineral resources is described in terms of their grade and purity.

MINERAL RESOURCES OF THE STATE

The mineral resources of the State are described in terms of their distribution, abundance, and quality. The distribution of the mineral resources is described in terms of their location within the State. The abundance of the mineral resources is described in terms of their quantity. The quality of the mineral resources is described in terms of their grade and purity.
